

Integrated Technology Solutions

Tuesday, October 24, 2017 (5:00-5:45 PM)

Track Two

Junior Ballroom G

At this conference we emphasize the importance of technology to your success. In this session you will learn how payment processing can increase your collections, how video wall technology will improve your customer interaction and connectivity, how your website and social media will help you gain market share and create a positive image, why you need to use experienced industry professionals to collect and remit tax collections using the latest electronic technology. All this technology helps you operate more efficiently and profitably, which is imperative to improving profit margins and cash flow. You can't afford to miss this session.
